

# Open Source CubeSat Workshop 2018

Darmstadt, 20<sup>th</sup> of July 2018

Hernán Páez, Talia Bessone, Ezequiel Molina, Alejandro Dri, Santiago Galvez  
CdR UTN-FRC  
Córdoba, Argentina

## Confirmation of Attendance

This letter is to confirm the attendance of

**Hernán Páez, Talia Bessone, Ezequiel Molina**

at the 2<sup>nd</sup> Open Source CubeSat Workshop that will take place at the premises of the

**European Space Astronomy Center (ESAC/ESA)  
Camino Bajo del Castillo, s/n., Urb. Villafranca del Castillo,  
28692 Villanueva de la Cañada, Madrid, Spain**

This is a two day workshop to see how the open source approach can be applied to CubeSat (and Small Sat) missions with a focus on space science for the benefit of all! Open source software and hardware is raising in popularity and acceptance on all areas of life. The workshop was created to promote the open source philosophy for CubeSat missions and further. The second edition of the workshop takes place at ESA's European Space Astronomy Center (ESAC).

The focus of this year's workshop is on space science open data: how to obtain, process, distribute, and benefit from openly shared space science data and what positive impact this can have for science community, business and society. The target audience of this workshop is academia, research institutes, companies, and individuals.

Looking forward to seeing you there,
